

B1  
CMT  
virus, isolating hybridoma cells which produce antibodies, and selecting and purifying  
monoclonal cell lines producing antibodies which specifically bind to said peptide or  
polypeptide. --

**IN THE ABSTRACT**

Please insert the Abstract provided on the attached sheet.

**REMARKS**

The Examiner is respectfully requested to enter the above amendments prior to  
examination of the instant application. Support for the amendments is present throughout  
the specification, in particular at pages 10-11.

Respectfully submitted,

February 2, 1999  
Date
